

DAILY SCHEDULE WEEK 2

Based on *Cherish the First Six Weeks* by Helen Moon

HONEYMOON WEEK Protect the rhythm

01

KEEP FEEDS REGULAR

About every 2½–3 hours through the day.

02

WAKE A SLEEPY FEEDER

Gentle stimulation can help complete a feed.

03

DIFFERENTIATE NIGHT

Make daytime social and nighttime quiet.

04

KEEP 10 PM STEADY

This becomes the dream-feed anchor.

10 PM

NIGHTTIME
10 pm–7 am

10:00 PM

ANCHOR FEED

Keep this time consistent

LONGER STRETCHES MAY BEGIN

The book's samples keep overnight feeds: roughly 1 and 4 a.m. for nursing, or 2 and 6 a.m. for formula.

DAY AND NIGHT CUES

Bright and social by day; dim and quiet overnight.

FEED EFFECTIVELY

Wake gently if baby is too sleepy to finish.

RETURN TO SLEEP

Burp, settle, and use a safe sleep space.

2½–3 HOURS BETWEEN DAYTIME FEEDS

The 10 p.m. anchor matters. Other times may shift slightly, but the book keeps this feed consistent.

Watch output and weight. Diapers and weight gain help show whether feeding is effective.

Visual companion based on publicly available week-by-week schedule details from Helen Moon's book. Follow your pediatrician's feeding plan, especially for premature babies, jaundice, weight concerns, or other medical needs.
